FOR IMMEDIATE RELEASE

KLEIN MARINE SYSTEMS TO SHOWCASE SYSTEM 4900 AT CANADIAN HYDROGRAPHIC CONFERENCE (CHC)

SALEM, NH – May 2, 2016 – Klein Marine Systems, Inc. (“Klein”), a wholly owned subsidiary of Mitcham Industries, Inc. (“Mitcham” or “the Company”) (NASDAQ: MIND) will be showcasing their latest advancements in Side Scan Sonar with the System 4900 Dual-Frequency Side Scan Sonar.

The Klein System 4900 is a versatile Side Scan Sonar used for many different survey and recovery applications. The high fidelity, high-definition imaging abilities and the portability of the System 4900 make it an ideal tool for Search and Recovery (SAR) missions while its long range performance, rugged construction, and 300 m operational depth rating provide superb capabilities for coastal surveying.

The System 4900 was specifically designed to produce detailed underwater images using advanced sonar technologies. It is commonly used by police, fire, sheriff, Coast Guard, and Naval units throughout the world. The system employs both a user selectable CW pulse transmission mode and advanced broadband CHIRP signal processing technology which, when coupled with Klein’s proprietary despeckling algorithms, provide extraordinary long range, high resolution seafloor images. Image quality is further improved by the System 4900 advanced transducer design which is optimized to provide very narrow horizontal beam widths and thereby exceptional along-track resolution. The combined result of these discriminating features is high quality image resolution at low frequency long ranges that is comparable to or better than high frequency, short range resolution images of competitive systems.

About Klein

Klein has over forty nine years of experience with the development and manufacture of high performance maritime products including side scan and bathymetry sonars and maritime surveillance and security solutions. Our side scan sonar systems are respected as the standard of excellence in the industry and are deployed by Governments, Navies, Port Authorities, surveyors, oil companies and universities worldwide. Klein occupies a 55,000 sq. ft. facility in Salem, NH USA.

About Mitcham Industries

Mitcham Industries, Inc. provides equipment to the geophysical, oceanographic and hydrographic industries. Headquartered in Huntsville, Texas, Mitcham has a global presence with operating locations in Salem, New Hampshire; Calgary, Canada; Brisbane, Australia; Singapore; Ufa, Bashkortostan, Russia; Budapest, Hungary; Lima, Peru; Bogota, Colombia and the United Kingdom. Through its Leasing Segment, Mitcham believes it is the largest independent provider of exploration equipment to the seismic industry. Mitcham's worldwide Equipment Manufacturing and Sales Segment includes its Seemap business, which designs, manufactures and sells specialized seismic marine equipment and Klein Marine Systems, Inc. which develops and manufactures high performance side scan sonar systems.
